		159	In upright or sitting position
101	CARRIED BY ANIMATE BEARER	160	Two attaching means (e.g.,
44.5	.Hod	100	straps, etc.) crossing
103	.Fish or game stringer or holder therefor		different shoulders
148.1	.For liquid or liquid-holding container	161	And seat mounted on or formed as part of framework or rigid
148.2	Including elongated delivery or		shield
	filling tube	162	.Including or carrying a reel
148.3	Including insulation	163	.Mounted on or formed as part of
148.4	Removable liquid-holding		belt buckle
	container held by carrier	164	.Watch attaching means extending
148.5	Secured by flaccid member		circumferentially of wrist
148.6	Strap-type flaccid member	165	And supporting different
148.7	Rigid or semirigid liquid-		article
	holding container or carrier	166	Means retaining watch if
149	.Receiver holding butt end of		primary attaching means fails
	rifle or shotgun stock	167	Means connecting watchcase to
150	.Sling attached to rifle or		end of attaching means for
	shotqun		motion about axis transverse
575	.Convertible or combined		to wrist
152	Watch carrier	168	Separate fastener securing
576	Combined with a different art		watch pin or bail bar to
370	device		middle portion of attaching
577	Convertible to a different art		means
377	device	169	Fingers gripping watchcase at
153	Backpack or component thereof		spaced points on periphery
154	Forming tent or component		thereof
134	thereof	170	Receiver disposed around watchcase
155	Forming seat or component	171	Separate spacer or positioner
	thereof	エ / エ	between wrist and watch or
156	Forming bed or litter or		attaching means
	component thereof	172	Cord-type attaching means
578	Carrier having a rearrangable	173	Separate decorative means
	strap	1,3	secured to attaching means
579	Multiple rearrangeable straps	174	Curved arm hinged to watchcase
580	Multiple independently usable	_,_	and biased by separate means
	straps		toward wrist clasping position
581	Carrier having a rearrangable	175	Expandable strap
	receiver	176	Attaching means tightener other
582	Multiple rearrangeable receivers		than buckle with pivoting tongue
583	Receiver detachable and	177	Separate fastener securing
	independently usable	± , ,	watch pin or bail bar to end of
584	Including means to secure the		attaching means
	carrier to a nonanimate	178	Multiple ply strap
	support	179	Rigid or semirigid band or arm
585	Securing means for vehicle	180	.Watch attaching means secured to
	attachment	±00	watchcase pin
586	Collapsible to nonuse position	181	.Head supported
	on user's body	182	Article or carrier attached to
157	.Article or person supported by	T 0 Z	garment by means entering hole
	plural bearers		therein
158	.Carrier for person	183	.Including magnet
	-	T 0 3	. Incruding magnet

184	.Including towing means attached to person	603	Receiver attached at nonend points of flaccid attaching
185	Article supported on upper end of elongate stanchion	604	meansReceiver and attaching means
	rotatably or swingably mounted	605	relatively movable
100	on attaching means	605	Detachable
186	.Canopy support	606	Single attaching means
187	Plural stanchions holding canopy		crossing both shoulders and extended circumferentially of
188	Attaching means looped around neck or crossing shoulder	607	torso under armsCarrier having single shoulder
189	Rigid attaching means		or neck engaged attaching
190	Two flaccid attaching means crossing different shoulders		means with receiver attached to terminal end of attaching
191	.Article held by receiver		means
192	Handgun receiver usable on	608	Having at least three
	either side of torso		distinct attachment points
193	Handgun receiver having		between the attaching means
173	vertically extending side		and the receiver
	edges spaced apart or	609	Separate receivers attached
	separable for withdrawal of		to each end of attaching means
	handgun therebetween	610	Terminal ends attached to
587	Holding article in concealment		receiver wall on opposite
307	(e.g., money belt worn under		sides of the receiver opening
	clothing or having hidden	611	Terminal ends attached to
	pocket, etc.)		frame on receiver
194	Receiver attached to clothing	612	Terminal ends extending down
	by opposed means gripping		sides of receiver
	gathered material	613	One terminal end attached by
195	Receiver supported for movement		receiver opening and the other
	around torso by rigid means		terminal end attached at a
	fixed on belt		point spaced from the opening
196	Means for ejecting article or	614	Having particular connection
	moving it to accessible		between receiver and terminal
	position		end
197	Receiver rotatably or swingably	615	Shoulder or neck engaged
	mounted on attaching means		attaching means held in
198	Handqun receiver		aperture in receiver wall
199	Closable receiver	616	Connection via ring (e.g.,
200	Receiver holding end of rod-		O-ring; D-ring, etc.)
	like article	617	And clip
201	Rigid support or attaching	618	With rotatable locking
	means looped around neck or		tongue (e.g., buckle)
	crossing shoulder	619	Rivet
600	Flaccid attaching means looped	620	Loop and hook fastener
	around neck or crossing	621	Hook
	shoulder	622	Connection is sewn
601	Attaching means formed as part	623	Receiver held against upper
	of or attached to receiver		chest
	closure	624	Attaching means encircles arm
602	Receiver formed as part	625	Carrier having single shoulder
	thereof or continuation	. = =	or neck engaging means and
	thereof attaching means		attaching means extending
	<u> </u>		circumferentially of torso
			-

626	At least part of the engaging	656	Drawstring
	means is directly attached to	657	Zipper
	attaching means	658	Loop and hook fastener
627	Two attaching means crossing	659	Buckle
	different shoulders	217	Attaching means engaged with
628	Including rigid or semirigid		finger
	support structure	218	Attaching means engaged with
629	Rigid or semirigid container		hand
630	Insert	219	Attaching means extending
631	Including means for		circumferentially of wrist
	adjusting receiver relative to	220	Freely suspended receiver
	the support structure	221	Attaching means tightener
632	Means for adjusting	222	Attaching means extending
	includes a track		circumferentially of limb
633	Framework	223	Plural receiver pockets formed
634	Parts of framework movable		by strip attached to backing
	relative to each other		at spaced points
635	Load distributing web	660	Receiver mounted on, or formed
	extending between vertical		as part of, means at least
	frame members		partially encircling the torso
636	Knapsack supported by two		for attaching carrier to
	upstanding, elongated members		bearer
	having lower ends thereof	661	With leg strap
627	supported by torso	662	Torso encircling attaching
637	And attaching means extending		means provided with cushioning
638	circumferentially of torso	662	or padding
030	Attaching means positioned at chest	663	Receiver separate from
639	Attaching means is a	664	attaching meansTorso encircling carrier
037	continuation of the shoulder	004	segmented by receiver
	straps	665	Removable connection
640	Attaching means segmented by	666	Clip or hook attaching
010	receiver	000	receiver to support means on
641	Having stabilizers connected		bearer
0 1 1	between attaching means and	667	Means mounted on or formed
	receiver	007	as part of clip or hook for
642	Cushioning		further securing or
643	In shoulder strap		positioning receiver to torso
644	Adjacent receiver wall		encircling means
645	Specified receiver details	668	A portion of the clip or
646	Receiver positioned in front		hook being surrounded by or
	of bearer		inserted into receiver wall
647	Attached on shoulder strap	669	Spring-biased clip
648	Attached on attaching means	670	Torsion spring
	extending circumferentially of	671	Apertured member or loop
	torso		attaching receiver to
649	Detachable		attaching means
650	Means attached to receiver	672	Means mounted on or formed
	wall for retaining article		as part of apertured member or
651	Strap		loop for further securing or
652	Additional pocket		positioning receiver to torso
653	Compartmented		encircling member
654	Receiver closing means	673	Slots in receiver wall
655	Flaps flexed between open	674	Loop
	and closed positions		

675	At least one end of the	255	.Carrier component positioned in
	loop being releasable		aperture in article or in
676	Specified receiver details		retaining loop mounted thereon
677	Receiver hanging below	256	Tongue secured to separate
	attaching means		support means on bearer
678	Receiver formed of rigid	257	.Flaccid attaching means looped
	material		around neck or crossing
679	Rigid material forms a		shoulder
	container	258	Means for adjusting loop size
680	Means holding additional		or hanger length of attaching
	article on outside of receiver		means looped around neck
681	Compartmented receiver	259	Two attaching means crossing
682	_		different shoulders
683	Multiple receivers	260	Article-suspending hanger on
	Superposed	200	each side of torso
684	Multiple receivers	261	And framework or rigid shield
	positioned on panel	262	
230	Receiver held in clothing	202	And attaching means extending
	pocket	063	circumferentially of torso
231	Receiver shaping means	263	Load-distributing web
232	Receiver holding knife,		extending between vertical
	bayonet, sword, or ice pick		frame members
233	Components separate to	264	Strap cushion or positioner
	facilitate cleaning		located at shoulder
234	Receiver holding axe, hatchet,	265	.Rigid support or attaching means
	or splitting wedge		looped around neck or crossing
235	Receiver closing means		shoulder
236	Flap flexed between open and	266	Yoke-type carrier
	closed positions	267	.Attaching means extending
237	Plural flaps on same receiver		circumferentially of wrist or
238	Handgun receiver		limb
239	Cartridge receiver	268	.Article held by hook
240	Receiver removably attached	269	.Clip or hook attaching article
240	to torso-encircling belt		carrier to support means on
241	_		bearer
	Hinged to receiver	270	.Article supported on
242	Retainer or positioner for		horizontally extending member
0.40	article held by receiver	271	.Rigid means fixedly mounted on
243	Handgun receiver		article and detachably
244	Retainer extending into		connectable to support means
	trigger guard opening		on bearer
245	Located in receiver	272	.Rigid means connecting carrier
246	Flaccid retainer for receiver		components
	formed of rigid or semirigid	400	VEHICLE ATTACHED
	material	401	.Carrier attached to special
247	Opposed article gripping means	401	purpose vehicle
248	Formed of wire or rod	274	Carrier attached to golf cart
249	Article held in perforation in	29.5	
	receiver wall		Carrier attached to railway car
250	Flaccid strap-type holding	402	Carrier attached to pickup
	means extending across or	400	truck
	about article	403	Carrier attached to truck bed
251	Article held in ring or tube	40.	portion of vehicle
254	.Article suspended by resiliently	404	Receptacle
	stretchable hanger	405	Rack for elongated article
	_	406	Carrier attached to aquatic
			vessel

407	Carrier attached to invalid device	445	Adjustable to different size cycle
408	Carrier attached to snowmobile	446	Adjustable to different size
409	Carrier attached to stroller or		article
102	baby carriage	447	With particular connection to
410	Carrier attached to tractor	11,	cycle
		440	_
411	Carrier attached to grocery or	448	Clamp
	shopping cart	449	Hook
412	.Carrier attached cycle	450	Fastener receiving eye or
413	Motorcycle		slot
414	Liquid-holding receptacle	451	With particular means for
	carried by or formed as		supporting article
	structural part of the carrier	452	Platform type
415	Carrier for a person	453	Cantilevered
416	Convertible	454	Having means for retaining
417	Convertible to device used off		article
	cycle	455	Tie down
418	Combined	456	Clamp
419	Means for mounting carrier to a	457	Framework
117	particular portion of the	458	Article held by hook
	cycle	459	Means for retaining article
420	Handlebar or stem	439	to bracket
421	Attached at second point on	460	Tie down
421			
400	another portion of the cycle	461	Clamp
422	Wheel axle	462	Spring biased
423	Fender	463	Flaccid member attaching
424	Fork		carrier to cycle
425	Frame tube	275	.Seat associated
426	Carrier attached to more than one tube	276	.Carrier attached to steering wheel or support column
427	Seat or seat post	482	.Carrier attached to window or
428	Receiver		window frame
429	Straddle type	483	.Carrier attached to dashboard
430	Detachable to support	277	.Holder for sheet, card, or
	structure		document
431	Receiver and support structure	278	.Holder for diverse smoking items
	separable	2,0	or materials (e.g., matchbox
432	Collapsible		attached to ash tray, etc.)
433	Rigid container	279	.Intercommunicable carriers
434	Walls of container formed by	280	.Dumpable receiver
131	wire	281	.Slidable receiver
435	With closure	282	.Pivotable or rotatable receiver
435	Flaccid member		
		484	.Convertible to different device
437	Flaccid container		or a different type of article
438	With framework	405	carrier
439	With closure	485	Convertible to hold different
440	With means for retaining	105	type of article
	article	486	Convertible to different device
441	Bracket	487	Different device is furniture
442	Two or more separate carriers used together	488	.Carrier attached to the front or rear end of vehicle
443	Movable	489	Integrated into bumper
444	Collapsible	490	Impact receiving carrier or article
		491	Displaceable bumper

492	Attached at second point on	532	Laterally extending arms
	another region of the vehicle	533	Article retaining means
493	Carrier attached to vehicle by	534	Tie-down
	an elongated, flexible member	535	Antitheft means
	(e.g., rope, strap, cord,	536	Clamp
101	etc.)	537	Article held in channel
494	Attached at front and rear of vehicle	309	.Carrier associated with vehicle
495	Movable carrier or carrier	210	roof or trunk lid
400	portion	310	Carrier having structure to
496	Movable to within vehicle or		facilitate loading (e.g.,
490	under vehicle		<pre>rollers, tracks, angled sides, etc.)</pre>
497	Collapsible to nonuse position	311	Vehicle roof or trunk lid
498	Having plural walls to retain	211	associated carrier mounted
100	article		within vehicle compartment
499	Folding platform type	312	On sun visor
500	Adjustable to size of vehicle	313	For clothes hangers
501	Adjustable to size of article	314	Removable carrier collapsible
502	Pivotable	214	for storage
503	Multiple nonparallel axes	315	Carrier with locking means
504	Axis parallel to bumper axis	316	Carrier having wind deflecting
505	Position retaining means	310	means
506	Pin and aperture	317	Carrier and mounting therefor
507	Abutting stop	317	extend across half or less of
508	Supporting link		vehicle
509	Axis perpendicular to bumper	318	Flexible carrier
309	axis	319	Carrier attached to carrier
510	Rectilinear movement	320	Expandable carrier
511	Cooperating coupling member on	321	Carrier having means to adjust
311	article carrier and vehicle	321	position or attitude
512	Attached to bumper or bumper	322	Single bar-type article
011	support		supporting means removably
513	Attached to bumper and a		attached exteriorly and
	secondary point at end of		transversely of vehicle
	vehicle	323	Having opposed gripping
514	Securing means encircles at		elements to clamp supported
	least a portion of the bumper		article
515	Clamp	324	Carrier having article
516	Attached to bumper support		retaining means
517	Fastened through vehicle body	325	Carrier comprises plurality of
518	Attached to undercarriage		spaced members
519	Trailer hitch	326	Members fixedly attached to
520	Ball hitch		vehicle surface
521	Telescoping	327	Article supporting portion of
522	Article-confining support means		carrier contoured to conform
523	Laterally extending member		to contour of vehicle surface
524	Platform type	328	Having enclosure or cover means
525	Upright member	329	Carrier to vehicle attaching
526	Upright retaining wall		means releasably engages the
527	Cover or closure		vehicle proximate the edge of
528	Diagonal support brace		the roof or trunk lid thereof
529	Horizontal support brace	330	Carrier adjustably connected
530	Vertical support brace		to rigid support intermediate
531	Upright member		carrier and attaching means

331	Attaching means is an	552	Adjustable to size of article
	individually acting clamp	553	Pivotable
42.11	.Straddle type	554	Rectilinear movement
42.12	.For rim, tire, or wheel	555	Specified bracket attaching
42.13	Combined with rack or		means
	receptacles	556	Positioned in vehicle crevice
42.14	Nested	557	Fastened through vehicle body
42.15	Plural	558	Clamp
42.16	One supported solely by	559	Suction cup
	another	560	Hook
42.18	With loop type or retainer	561	And brace
42.19	With rim clamping means	562	Magnet
42.2	With cover or casing	563	Flaccid receiver
42.21	Movably mounted	564	Horizontally extending
42.23	Underslung		shelflike member
42.24	Wheel hub or hub opening	565	Upright member
	engaging type	566	Upright member forms
42.25	With antitheft means		container
42.26	Rim and/or tire gripping	567	Article retaining means
42.27	Expanding	568	Tie-down
42.28	Swingably mounted	569	Antitheft means
42.29	Rectilinearly movable	570	Clamp
42.3	Movable laterally of tire rim	571	Article held in channel
	plane	572	.Article carrier secured to
42.31	.Mud guard attached (i.e.,		vehicle by flaccid securing
	fender)		means
42.32	.Platform attached	.5	MISCELLANEOUS
42.33	Upright retaining wall		
42.33 42.34	Upright retaining wall Flexible or collapsible		
	Flexible or collapsible
